The Annual Quality Assurance Report (AQAR) of Upendra Nath College, Nalagaja, Mayurbhanj, Odisha for the session 2018-19

The Annual Quality Assurance Report (AQAR) of the IQAC

All NAAC accredited institutions will submit an annual self-reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the academic year. The AQAR will detail the results of the perspective plan worked out by the IQAC. (Note: The AQAR period would be the Academic Year. For example, July 1, 2012 to June 30, 2013)

Part – A 2018-19 **AQAR** for the year I. Details of the Institution **UPENDRA NATH COLLEGE** 1.1 Name of the Institution 1.2 Address Line 1 AT/PO- NALAGAJA PS- RASGOVINDPUR Address Line 2 **BARIPADA** City/Town **ORISSA** State 757073 Pin Code unc.nalagaja@rediffmail.com Institution e-mail address 06793-121711 Contact Nos. MR. KISHORE KUMAR PANIGRAHI Name of the Head of the Institution: Tel. No. with STD Code: 06793-121711 Mobile: 09437771832

Name of the IQAC Co-ordinator:

Mobile:

9178887999

IQAC e-mail address:

unc.nalagaja@rediffmail.com

1.3 NAAC Track ID (For ex. MHCOGN 18879)

ORCOGN13673

OR

1.4 NAAC Executive Committee No. & Date:

EC/46/A&A/096 dated 16-09-2008

(For Example EC/32/A&A/143 dated 3-5-2004. This EC no. is available in the right corner- bottom of your institution's Accreditation Certificate)

6.3.2 Teaching and Learning

The teaching and learning process is being executed as per time table and all the faculties maintain their lesson plans and progress register and other related activities stipulated by University.

6.3.3 Examination and Evaluation

Unit Tests, mid-term Examinations are conducted to evaluate the performance of the students. The semester exams under choice based credit system are conducted by the University.

6.3.4 Research and Development

A research committee has been constituted to encourage research work by the faculties and forwards the applications for MRP to UGC after proper scrutiny.

6.3.5 Library, ICT and physical infrastructure / instrumentation

The college has a general Library with adequate books and journals, departmental libraries. The library is automated for smooth functioning. One computer laboratory with 10 Nos. of computers and internet facilities has been established for faculties and students.. The college has adequate class-rooms, Laboratories, Administrative block, Playground, Garden, Teacher's Common Room, Boys' Common Room and Girls' Common Room separately with toilet facilities, Woman's' Hostel, Two Boys' Hostels (One under construction), multi-gymnasium etc. to up keep a sound environment.

6.3.6 Human Resource Management

The principal, Academic Bursar and IQAC monitor the entire academic process. Feed-backs from students, parents, staff and alumni are collected and proper course of action is taken by IQAC for improvement of quality education. Besides, the management of the college keeps close watch over the activities.

6.3.7 Faculty and Staff recruitment

Following shortfall in staff-in-position, the management appoints required number of part-time teachers for maintaining smooth academic process.

Department of Economics and Commerce visit various MSME units
and other small industrial establishments for diffusing knowledge on
industrial development.

6.3.9 Admission of Students

Admission of UG students is managed centrally by the Govt. through SAMS on the basis of merit.

6.4 Welfare schemes f	or

6.6 Whether annual financial audit has been done

Yes ✓ No

6.7 Whether Academic and Administrative Audit (AAA) has been done?

Audit Type	H	External		Internal
	Yes/No	Agency	Yes/No	Authority
Academic	YES	DLC/Task Force of Govt.	YES	Principal & Academic Bursar
Administrative	YES	-Do-	YES	Principal &

6.8 Does the University/ Autonomous College declares results within 30 days?

For UG Programmes	Yes	No	√

For PG Programmes Yes No

6.9 What efforts are made by the University/ Autonomous College for Examination Reforms?

Examinations are conducted as per the rules of the University.

6.10 What efforts are made by the University to promote autonomy in the affiliated/constituent colleges?

The examinations process of the college is maintained strictly as per the rules & regulations of the University.

6.11 Activities and support from the Alumni Association

Alumni Association is deeply associated with the development process of the college.

6.12 Activities and support from the Parent – Teacher Association

Parent-Teacher meeting is held in the institution and opinions in the feedbacks from the parents are taken note of for further implementation.

6.13 Development programmes for support staff

Training programmes like orientation for computer literacy and application, recommendation for account training etc. are provided to the support staff to enhance their skill and efficiency.

6.14 Initiatives taken by the institution to make the campus eco-friendly

Through a formal mechanism, initiatives are taken to make the campus is made eco-friendly.

Criterion - VII

7. Innovations and Best Practices

7.1 Innovations introduced during this academic year which have created a positive impact on the functioning of the institution. Give details.

With renewed strategic action plan extra classes are taken from the 1st week of January every year. It ends with a cultural festive programme on 23rd January, every year on the commemoration of the birthday of Netaji Subash Chandra Bose.

7.2 Provide the Action Taken Report (ATR) based on the plan of action decided upon at the beginning of the year

To make the innovative programme more meaningful and significant, at the beginning of the session the IQAC reviews the progress of the activities and suggests for further course of action.

7.3 Give two Best Practices of the institution	(please see the	format in the NAAC S	elf-stud	v Manuals)
--	-----------------	----------------------	----------	------------

- 1. Prevention of intoxication in the locality.
- 2. Awareness on Men-Elephant conflict and preservation of biodiversity.

7.4 Contribution to environmental awareness / protection

Protection of environment is given more priority by plantation of trees in large nos. inside the campus. Awareness programmes on protection of environment are undertaken by NSS and IQAC to aware the local to preserve forest and trees.

7.5	Whether environmental audit was conducted?	Yes	✓	No	
-----	--	-----	---	----	--

7.6 Any other relevant information the institution wishes to add. (for example SWOT Analysis)

The college concedes the deficiencies as pointed out by the Peer Team and emphasizes to overcome them by adding new physical and learning resources to the existing inventories of the institution through formal mechanism.

8. Plans of institution for next year

- 1. To develop the infrastructural facilities suitable to the changing academic environment and to ensure administrative transparency.
- 2. To develop ICT facilities in the institution for the benefit of all.
- 3. To make teaching-learning process more effective.

Feedback received from stakeholders

Feedbacks for the session 2017-18 were collected from stakeholders. The stakeholders comprised Students, Parents and Alumni. The inputs found in the feedback were elaborately discussed in the IQAC meetings. After careful analysis of the inputs in feedback, the IQAC resolved to facilitate learning through ICT by constructing a new smart room from the coming session so that students would be streamlined towards quality education. Suggestions from both the Parents and Students were taken into active consideration. It was resolved to maintain a healthy academic environment and to ensure the involvement of students and faculties in curricular and extra-curricular activities. Course completion in due time as per lesson plan was prioritized. Accordingly, action plan was taken to complete the courses by strategizing extra classes from 1st week of January to 23rd January. The IQAC also suggested all the faculties to deeply involve themselves with students through interaction and guidance outside class rooms. It was also decided to incorporate strategic plans to facilitate for development work in the campus to bring about a conducive teaching learning environment. It also laid emphasis on some learning resources and their acquisition for better teaching learning process. Views of the Alumni in respect of infrastructural development were also taken in to account and the said development was resolved to be initiated after budget allocation and approval. The feedbacks obtained from the stakeholders have worked like a catalyst not only to improve the ongoing development activities but also to ensure a self-propelled mechanism of development initiatives for future towards quality excellence.

1. Title of the practice: 'Spreading Awareness against Alcoholic addiction'.

1. Goal-

Twenty first century is the century of knowledge and innovation. Knowledge based education invariably requires practicing social and ethical values. The institution aims at fostering the aforesaid values among the aggrieved segment of the locality. We strongly believe in the social and moral upliftment of society through higher educational institution like ours. The goal of this practice also aims at deeply involving students both boys and girls who are supposed to be the major instruments of social change.

3. The context-

Instances of continuing impoverishment and malnourishment more so in case of tribal women and infants thereof continuously put them at high risk of vulnerable diseases and other related problem. At times under the influence of alcohol, heinous crimes such as murder, sacrifice of humans consequent upon witchcraft and sorcery are committed in drunken condition which has negative social effects. This compels the society to rethink for eradication of such social evil practices. Since the institution is located in such a milieu, contextually it is befitting to address these issues which have great social as well as moral value. In addition, elephants from Dalma elephant sanctuary cross through this area during paddy harvesting season and are attracted to villages to consume Handia (rice beer) and Mahuli (country-made rum) and bring destruction to life and property. Preparation of Handia and Mahuli in this locality is one of the major causes of man- elephant conflict.

4. The practice-

The institution adopts the following practices for better implementation of the programme.

1. Seminars are conducted periodically in the college campus inviting locals to sensitize them on topics like prohibition of alcoholic consumption especially Mahuli and Handia & their preparation. Diseases like TB, Heart ailment, Diabetes, Kidney and Liver problem are rampant among the tribal. These tribal instead of going for medical treatment opt for witchcraft and sorcery. The institution incessantly endeavors to bring these targeted groups to mainstream to carry forward the message of the evils of alcoholic consumption. The NSS Units of the institution organize camps at selected vulnerable sites to spread the message of the evils of alcoholic consumption. Leaflets are distributed in the villages by the volunteers to educate them on different themes. Various Departments of the institution organize field visits and sample surveys on eradication of illiteracy, ignorance and poverty. Awareness campaigns involving boys and girls of the institution are organized

in Hats (weekly local markets) and local Melas (fairs) with a view to sensitizing the people in general and the tribal in particular using AV Aids. Dramatic representations by selected artists from among the students of the institution using the themes like prohibition of liquor/health hazards due to TB/benefits of small family norm etc. are displayed at public places in the form of road shows (patha pranta nataka). This method is adopted to attract the tribal community and others to remain present and in the process they learn the benefits of the above themes. This method has been selected by the institution as because it is located in an area predominantly inhabited by SC/STs as per available statistical information from different Govt. agencies both in the district as well as state level. Antyodaya Chetana Mandal(ACM) is one of the leading NGOs in the district of Mayurbhanj which is well associated with our programme. The Organization has been rendering different kinds of health and other social services to the public in general and the tribal community in particular. In addition to its usual day to day activities, the organization extends various kinds of moral and physical support to implement various programmes initiated at our level. We feel that their involvement makes our practice more meaningful and significant.

Constraints and other limitation: - The tribal have specific cultural tradition and their rigid habits and customs do not allow them to accept the practice that the institution tries to implement. Further, superstition and other dogmas like witchcraft, sorcery, disentangling of spirits (Chhadana) are so deep rooted stigma among the tribal that restrain them to accept our efforts to bring about in them desired socio-economic changes.

5. Evidence of success-

Electronic and print media, as well as govt. report reveal a lot of human-elephant conflicts and causalities thereof in the month of November, December & January every year consequent upon infiltration of large number of elephants from neighboring states Jharkhand & West Bengal. Consequent upon the frequencies of such occurrence during the last five years, the Govt. has reckoned this place as one of the noted elephant corridors. The elephants primarily on their way to Nilgiri forest range and some other buffer zones of Similipal sanctuary cause lots of damage to corn fields, thatched and mud houses thus threatening the lives and properties of poor rural tribal. The causalities occur among the Adivasis who illegally make Handia and Mahuli. Considering the above facts the efforts of the institution has started bearing fruits. Consequently, such hazards have been minimized to a great extent. The preparation of Handia and Mahuli has been in the declining trend though not checked fully. Since it is a process it will be our effort to continue such practices through our renewed interest and vigor.

6. Problem encountered and resources required-

Illiteracy, ignorance and poverty of the tribal stand as a major barrier towards acceptance of the initiatives taken by the institution. These people still stick to their primordial connection to addiction, superstition and the like. Their language is different. Illiterate tribal understand 'Santali' and they don't accept instructions in any other language other than 'Santali'. So the inputs in terms of road shows, counseling through interactive mode supplied at our level fall short of our expectation. Moreover, in spite of awareness campaigns and sensitization programmes by the institution regarding health and other health related ailments such as TB, Cardiovascular diseases, Kidney and Lever problem caused by consumption of Handia and Mahuli, still some tribal do not visit hospital for their treatment. Rather, they depend on local quacks, sorcery and do other old fashioned practices like 'chhadana' for their recovery. At times, poverty also stands as a barrier for them to undergo proper medical treatment. Modern health treatment involves sizable amount of expenditure. Unfortunately, they do not have either landed property or required savings for treatment at better hospitals situated around 250km from here. As the institution is a non-Govt. one, funds required to organize the renewed efforts is a major constraint. Money does not flow from the Govt. to pursue these programmes at our end.

7. Notes (optional) -

In order to make an alcoholic free society, all the stakeholders of Higher Educational Institution need to select the method of practice according to their local problem and context in variously varied ways so that the process of implementing the practices can be made possible. Dealing against such long cherished custom, institutions are required to take care and ensure that the psychology of the tribal community are not disturbed, because they are primitive, ignorant, simple and akin to their religions. So moral and spiritual method may work significantly to deal with the tribal psychology and in turn, implementation of practices may be fruitful. So the strategized plan and follow-up- action must be backed both by reason and spirit. The headman and the religious leaders of the community must be convinced both by rational and spiritual ways. Once their leaders are convinced they can diffuse what they learn from reality and the problem of the community at large gets lessened.

FORMAT FOR PRESENTATION OF BEST PRACTICES- 02

1. Title of the practice: Reducing conflict between men and elephants in the locality.

2. Goal-

If we look at the present scenario all over the world, man in the name of development is indulging in the activities which are detrimental to the very existence of this beautiful earth. The exploitation of nature for his selfish gain is causing horrifying ecological imbalances. Numerous organisms in general and the elephant species in particular are endangered due to various human activities such as deforestation, construction of road, Dam Construction, reduction of area for free movement of wild animals have caused destruction of wild lives. The scenario in Odisha and Mayurbhanj district in particular is also no less miserable in the field of human -Elephant conflicts, since the locality NALAGAJA where the college is situated is witnessing the human-elephant conflict frequently. The Academic Council of the college had a thorough discussion over this burning issue of the locality and analyzed deeply to adopt this practice so as to prevent the human-elephant conflict, destruction of both human and elephant lives and crops of the locality. For the purpose, the Departments of Botany and Zoology are entrusted with the task of undertaking relevant academic pursuits and the aim of this practice is to train the students and prepare them to spread this knowledge among the locals.

3. The context-

It is the urgent need of the locality to protect the elephant corridor for the safe passage of the elephants and to reduce simultaneously the possibility of accident between human & elephant. At times, the elephants are noticed entering the college premise and destroying the trees in the campus and the nearby houses of the village. It is because of the said horror that the college is often closed to save the life of students and assets of the institution.

4. The practice –

The institution resorts to the following strategies with a view to realizing the goals in the entitled practice.

The students of Zoology & Botany Dept. of the college are sensitized on the issue by taking them to the very spot and they are duly trained to educate locals mostly the tribal for the preventive measures. The students under the active guidance of the teachers organize various awareness programmes for the ignorant people and train them how to defend their lives and properties. During the harvesting time i.e., from the month of November to December, every year the elephants usually starts their erratic movements from neighboring States West Bengal (4 km away) and Jharkhand (30 km away) towards Nilgiri forest range. During this time the local tribal people are also made well aware not to prepare rice beer(Handia) and country made rum (Mahuli), the odour of which attracts the elephants towards the human habitats. By conducting different awareness programmes as detailed below the people are motivated not to disturb the safe passage of the elephants.

- (i) Wild life conservation management- At par with Govt. Forest Conservation Act., the students of Life Science Departments are in the practice of educating the vulnerable sections of locality on wild life conservation management and at the same time students and local villagers gather information about elephants. The targeted locals are made to learn how to refrain themselves from diverting the elephants from their paddy crops by using electric fence which often causes electrocution of elephants and drag these innocent people to unnecessary legal complicacies. Rather they are motivated to disperse the elephants through simple and plain methods by showing fire flames and beating drums.
- (ii) Diffusing spiritual knowledge- Spiritual life of tribal people is quite quaint and secretive. Their beliefs and values make them to have a reciprocal connection with natural world and animals of the forest as well. Spiritually they accept nature and wild animals as their friends. Many animals are symbolically associated with gods and goddesses in the python of tribal religion. For example, elephants are accepted by the locals as Goddess Laxmi (symbolic of wealth and prosperity). By exploiting their psychological, moral, and spiritual weakness we try to impose in their mind not to cause any harm to these elephants. Accordingly, spiritual awareness is fostered among them by the stakeholders of the institution in order to achieve the desired outcome.
- (iii) Sensitizing locals against alcoholic addiction In order to reduce the conflict between man and animal, our students create deep awareness in the heart of the locals neither to prepare nor to consume the rice beer (Handia) and country made rum (Mahuli). Because non-consumption of alcohol will lead common men in the right direction and at the same time non-preparation of alcohol will not attract these wild elephants to human habitats.

5. Evidence of success-

We observe a considerable reduction of conflicts between men and elephants consequent upon our efforts and willingness in implementing the best practices. Casualties in this locality have been minimized. Damage of houses and paddy crops in the peak months particularly from the month of November to January has been reduced in this area. Another noticeable feature is reduction in the preparation of country made liquor and beer by tribal as well as non-tribal in this locality due to awareness programmes successfully conducted by the institution.

6. Problem encountered and resources required –

The problem of man-elephant conflicts is a major issue in the locality. Illiteracy of the people mostly among the tribal stand as a stumbling block in disseminating required awareness among them. Most of them use their local language which is Santali. Spreading these awareness programmes in their local language could have been more successful if trainers from their language were utilized. Poverty compels some of the Adivasis to produce Handia to sell them in the area to earn their livelihood. Given their economic backwardness, it is very difficult to stop them from preparing Handia until some alternative source of income is assured to them. Ignorance on health status caused due to consumption of Handia and Mahuli by the tribal is another challenge seriously encountered during interaction. Financial implications are involved to continue these awareness programmes effectively as this involves recurring expenditure for which sufficient funds is not available with the college.

7. Notes (optional) –

Any Higher Educational Institution requiring methodologies of practice to adopt and carry out solely depends upon the prevailing situation and the context in force where the institution exists. The efforts of the institution in reducing man-elephant conflicts and in preserving bio-diversity have produced positive results. To move ahead with our renewed plans and programmes involves additional expenses and as a Non-Government institution it requires special funds to sustain this practice.
